

Dear Harbour Wood Neighbors:

Harbour Wood is nearly 20 years old, so if you haven't replaced your roof, you probably will soon. Two years ago you voted to allow 40 year architectural grade composition roofs or better to be installed on Harbour Wood homes. **Any changes in roofing need ACC approval prior to construction.** Below is a list of products and colors which have been pre-approved by the ACC, in hopes of making your decisions easier. You can still submit other materials for approval, but the process may take longer. Keep in mind that many composition roofs come with 30, 40, 50-year, or even lifetime warranties. **You need 40-year or above.**

Remember that all changes in roofing require ACC approval, even with materials selected from this list.
